

2024

Annual Report

OUR MISSION

From immediate help to re-habilitation to sustainability we strive to be of assistance to those in need and trying life's situation.

OUR VISION

As a humanitarian organization, we aim to provide value and promote volunteerism, besides help to the poor and needy.

OUR CORE VALUES

“Therefore, as we have the opportunity, let us do good to all, especially those who are of the household of faith.”

www.facebook.com/nacsearelief.org

<https://www.nacsearelief.org>

From the desk of the President

Dear Donors, Sponsors, and Friends of the Philippines,

Our 2024 Annual Report is not about boasting or placing ourselves on a pedestal of accomplishments. The purpose is solely and only for transparency. In the biblical parable of the talents, the servants were called to give an account—and so are we.

We had a busy and impactful year and are deeply grateful to everyone who supported our efforts to make a difference in education, food security, livelihood programs as well as disaster relief.

We thank our donors, large organizations but we appreciated also the little token as again we experienced already with little much can be done. It does not always have to be a big project to do good.

Thank you to all suppliers and workers, and especially also the pastoral network of the NAC Philippines which offered a much appreciated collaboration pro bono publico.

A special thank you to our Sponsors in Management and Logistics, the people behind STAMM International Inc. Without them our overhead would be much higher, thus more can be invested into our projects.

Last but not least a big thank-you to our staff, first and foremost our front-liner **Mabelle Bagtas**, the administrative support by **Ruth Moring** and the many silent helping hands.

God bless you all!

A handwritten signature in black ink, which appears to read "Urs Hebeisen".

URS HEBEISEN

President NACSEARelief

Renewal of Memorandum of Agreements

January 17, 2024 – As previously reported, some church buildings are no longer in pastoral use. NACSEARelief looks for ways to repurpose these facilities for the benefit of the public.

Mrs. Lourdes Dimaguila of GoForward Foundation in Biñan, along with Councillor Theodoro Vale from Barangay Damayan in Famy, visited our office to renew their respective Memoranda of Agreement.

“The church is part of society and thus it is a privilege to put such valuable properties at disposal for the benefit of community. Also this belongs to accountability” the President of NACSEARelief stated. Also present at the meeting was Apostle Samuel Tansatikno, the current District Rector of the New Apostolic Church Philippines.

While programs in Biñan focus on persons with disabilities, initiatives in Famy primarily support youth beneficiaries through Sanguniang Kabataan.

Restoring and repurposing houses of worship is an established tool to give it a new lease on life that benefits the community.

New Classroom Project in Davao Occidental

January 19, 2024 - The work has begun on a classroom building in Kiabog, Davao Occidental, Philippines, sponsored by a Canadian charity. This facility will support the Mobile Alternative Learning System (ALS) by the Department of Education, to benefit the local children of the area by providing a place to learn.

Our frontliner, Mabelle Bagtas, is on-site to meet with the community, representatives from DepEd, builders, and the Barrio Captain to plan the work which is set to commence by the end of January. The great challenge to face is the haulage and delivery of materials up to the school site yet the community is willing to help and will use their horses to bring the materials up the mountain difficult trek of Kiabog site.

The team had to brave adverse weather conditions and undertake a strenuous trek to reach this remote location, highlighting the dedication behind this important project.

Disasters Relief in Mindanao: Be a Bearer of Light to People in Need

February 14, 2024 - While Valentine's Day is widely celebrated in urban areas, 1.6 million people in the provinces of Davao de Oro and Davao Oriental are suffering from the devastating effects of floods and landslides. Reports of calamity have also been received from Agusan. According to local media, tens of thousands have fled their homes, seeking refuge in evacuation centers, schools, and churches yet just to face the next challenge: hunger.

It rains and that causes floods even landslides and in an instant - homes, food supplies, and crops are destroyed or totally gone. One who does not experience that can hardly imagine what a stress and anxiety this means for families and communities.

At NACSEARelief, we always feel sad how little one can do. Yet, every act of outreach makes a difference, and we are grateful that, thanks to private donors in Germany, we have been able to assist over 100 families so far.

SWISS FESTIVAL RAISING FUNDS FOR FLOOD VICTIMS

February 20, 2024 - The Swiss Ambassador visited Merville today to attend a cultural event at LeDelice, which is sponsoring NACSEARelief's flood relief program in Mindanao.

A group of Swiss nationals from the city of Basel gathered for a live broadcast of the world heritage-certified Basel Carnival. At exactly 4 AM Swiss time (11 AM Merville time), the Ambassador and 12 Swiss attendees from Basel witnessed the festival's official opening, known as "Morgestraich."

In keeping with tradition, LeDelice served flour soup, onion tarts, and cheese tarts to the guests.

Annual board of trustees meeting

Butuan, March 2, 2024 - The annual meeting was held once again in Butuan City, Agusan del Norte, Philippines, hosted by the National Council of the New Apostolic Church, Philippines. Connected via zoom were board members Kurt Brenner in Switzerland and our representatives in Germany Genalyn Mosura-Rueger and Philip Rueger . The Secretary Mabelle Bagtas presented the annual report 2023 and the President elaborated on strategy and program 2024.

We express deep thanksgiving to all who supported our cause - donors, volunteers, frontliners, and our partners worldwide.

INTRODUCTION TO COMPLIANCE MANAGEMENT

8th of March 2024 in Merville/Paranaque. Sabine Mueller, Board of Trustee member at NAK-karitativ and presently in the Philippines assigned to a project at the "Sisters of Mary" school introduced the NAK-karitativ Compliance Management to the NACSEARelief Administrative Leadership Team. She lectured on Ethics, Code of conduct imperative to all NAK-karitativ employees including partner organizations like ours, suppliers and other stakeholders.

Focus was zero tolerance on corruption, misconduct and violations and standards of project procurements. The importance on whistleblower protection was stressed. Information and complains about wrongdoings can be anonymously reported to <https://nak-karitativshare-a-hint.com/>

NACSEARelief will apply such standards to all projects under its jurisdiction.

New Office for NACSEARelief

March 22, 2024 - As a nonprofit organization, we are dependent on donations to sustain our work. Since we aim to have donations reaching the beneficiaries in full we also see to it to keep overhead to a minimum. One of our major expenses has always been office rental, and we are incredibly grateful to our sponsors who accommodate us. For many years, we were generously supported by STAMM International Inc. However, due to their expansion and growing space requirements, we had to relocate. Fortunately, we found our new location in the Administration office of NAC Philippines.

While New Apostolic Church is now our landlord, we continue to operate independently, maintaining our legal status while benefiting from their pastoral network, which significantly saves our operational costs.

Additionally, we are grateful to a businessman who recently relocated and kindly donated office furniture, further easing our transition.

A heartfelt thank you to STAMM International and NAC Philippines for their continued support in making our work possible!

NACSEA RELIEF Scholar pass the board exam

Seraina Torres Nuyad is a NACSEA RELIEF scholar since 2019 and we share this joy to all our partners who supported her.

Seraina Torres Nuyad is one of the 7,309 passers out of the 9,068 exam takers who passed the March 2024 Licensure Examination for Medical Technologist!

Our warmest congratulations to Seraina and to her family! We are so proud of you!

Special thanks to Unfried Stiftung for helping make the dreams of NACSEA Relief scholars become a reality!

In support of the fourth Sustainable Development Goal of the United Nations, which is to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all, NACSEA RELIEF, Inc. has helped hundreds of scholars since 2011. By providing opportunities for education, NACSEA RELIEF believes that the benefits will eventually ripple across the scholar's family, community, and nation across generations.

***Congratulations to Rhea Basilio and Kym Alexis T. Verano,
NACSEA Relief Scholars Batch 2023, for Passing the July-August
2024 Board Examination for Criminologists!***

Rhea Basilio

Kym Alexis T. Verano

We extend our warmest congratulations to the NACSEA Relief Scholars from Batch 2023, for successfully passing the July-August 2024 Board Examination for Criminologists. This remarkable achievement is a testament to their hard work, dedication, and perseverance in the field of criminology.

Your achievement brings immense pride to the NACSEA Relief family, and we look forward to witnessing your continued success in the field of criminology. May you inspire more aspiring criminologists to pursue their dreams with passion and dedication.

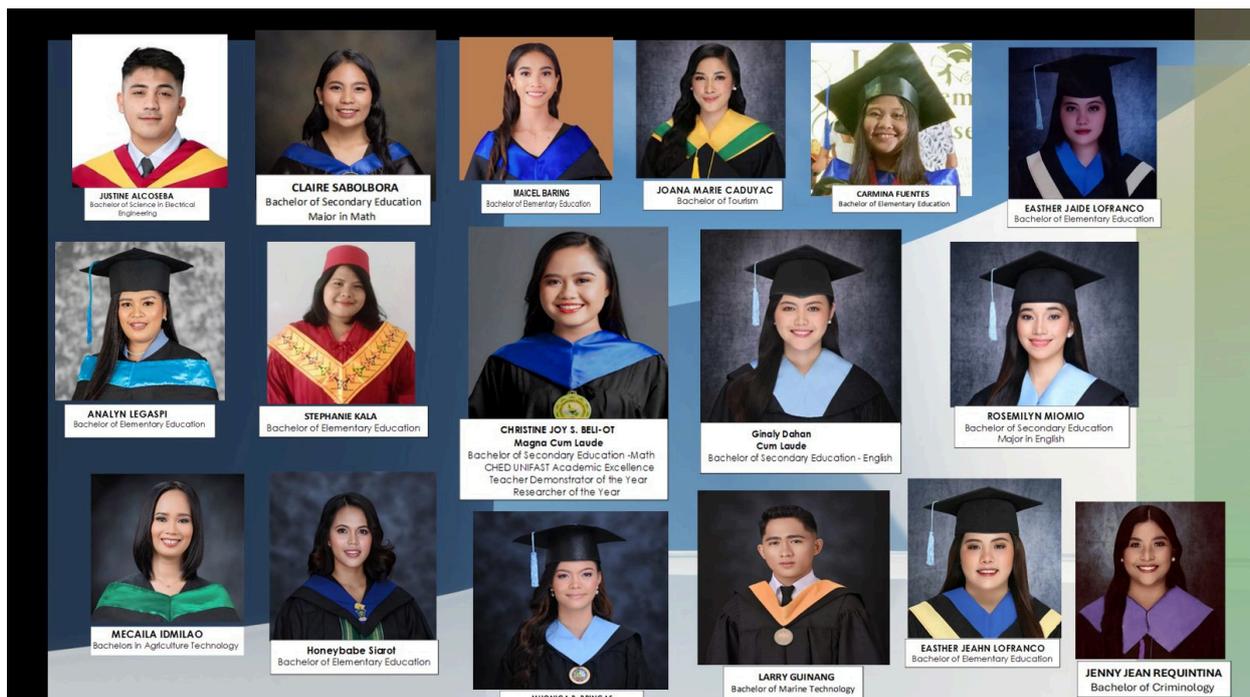

Mabuhay kayo at patuloy na magtagumpay!

CONGRATULATIONS

to NACSEA Relief Scholars

OF BATCH 2024 GRADUATES

Congratulations to the 17 NACSEA Relief scholars who successfully graduated this 2024!

Your hard work, dedication, and resilience have brought you to this incredible milestone. Big thank you to all our donors especially to Unfried-Stiftung for your generosity and continued support making this achievement by our dear students possible.

NACSEARELIEF INC.

LIST OF SCHOLARS FOR S.Y. 2024-2025

ENROLLED IN PUBLIC COLLEGES/UNIVERSITIES:

NO.	NAMES	COURSES	LEVEL
1	BANITO, Crispel	Bachelor of Early Childhood Educ	4th
2	BONAJOS, Rica	Bachelor of Tech & Livelihood Educ	4th

Dedication and Turnover of Another School Building: A Milestone for Quality Education

April 16, 2024 - Our member of the board and director for Mindanao Freddie Nuyad signed the turnover to the Department of Education (DepEd) the new 1-building with 2- classrooms + 1- faculty room + 3-comfort rooms + 2-handwash areas + 2-sets teachers' tables and chairs + 2-blackboards+ 40- students chairs/tables+ 2-cabinets donated by NACSEA Relief, Inc. and supported by New Apostolic Church International of Switzerland.

Key officers from DepEd, Municipality of T'boli, Barangay Laconon, Military and other government officials who graced the event were all more than proud, grateful, fulfilled, and happy, knowing that the lives of more learners will surely change positively with the help of the new school facility. Freddie Nuyad of NACSEA Relief, who believes in the power of education in uplifting communities, shared that the organization had already turned over 5- school building projects to the grassroots communities in his area with building structures which were all according to DepEd standards ideal for the students' learning environment and spaces that will allow young people to flourish and learn. He encouraged the Motosom community to help take care and maintain of the upkeep the school facility.

SDS Efren Balala, in his acceptance speech and on behalf of DepEd, expressed thanks to the kind-hearted people particularly NACSEA Relief executives and donors NAC Philippines and especially to NACInternational for their unwavering support to better education of unprivileged children in the far-flung areas.

Municipal Mayor, Hon Mayor Keo Dayle Tuan also expressed his great appreciation and commitment to all partners of NACSEA Relief to better the status of education. He further noted that this project will bridge the gaps and open wide array of chances and opportunities for T'boli children despite the challenges and difficulties which are multifactorial by nature.

Meanwhile, SB Committee Chair on Education, Hon. Councilor Kirk T. expressed elation with the inauguration of new school building, saying that good facilities and infrastructures are important in producing school outcomes. This would encourage good attendance to students as they would be inspired to go to school.

Mr. Gil Tongcaling, Principal In-charge/Principal III of DepEd, expressed great thankfulness to all stakeholders for their support to address the gaps in resources and facilities of schools in geographically isolated and disadvantaged areas and transform makeshift classrooms into an environment conducive for learning. He is confident that with the continuing support of private sectors and other stakeholders, education resource gaps can be further narrowed down.

Teacher Alfred also thanked the implementors who made the construction of the integrated school buildings possible. He assured that through this project, he will continue to deliver quality education for the students of Motosom in their new school.

The parents, teachers, and students were all very happy after the inauguration as they need not walk long kilometers anymore in going to school. 200-students will benefit from this project (*Mabelle Bagtas, Operations Manager NACSEARelief*).

CAPTURED MEMORIES

From Ash to New Humble Abode

May 5, 2024 - Fire incidents can happen in any facility, regardless of its size, type, or location. They cause serious damage to properties and disrupt normal daily life and livelihood.

Due to the fire, the house of Garingo family collapsed when burnt down to ashes. The victims were in a desperate situation and needed materials to rebuild back their house. NACSEA Relief provided disaster assistance by giving immediate needs of building materials and recover from the said disaster.

Ang Nagpasalamat,
 Family Garingo

A NEW CHAPTER IN EDUCATION: PRIMARY SCHOOL PROJECT IN BANATE, ILOILO

2 months into construction and completion stands at 40 %.

May 17, 2024 - The project aims to address the increasing demand for educational facilities in the area.

This initiative has instilled a renewed sense of hope in the community and promises a brighter future for the education of their children. It will also enable students to attend classes regularly and concentrate on their studies without facing transportation challenges anymore.

With the support of Nak Humanitas Switzerland, 89-pupils who are presently enrolled in this school as well the 7-school teachers will benefit of the improvement of their facilities.

Accomplishment and dedication is envisioned for October.

Great team, our friends and partners

Dortmund, May 14, 2024 - Our work depends on excellent collaboration based on mutual understanding of needs and requirements, thus meetings and exchange of thoughts are essential thus the visit of our president at the offices NAK-karitativ one of our major partner in funding and project procurement.

The manager of NAK-karitativ Ms. Tatjana Augustins and her team received us at their office. Discussion points were strategic questions and visions e.g. combining development projects with humanitarian help meaning making emergency aid more sustainable and bringing humanitarian work towards more future oriented results of improving the life of the marginalized and needy. Indeed a challenging mission. Furthermore, compliance issues were discussed and the work and procedure manuals of NACSEARelief presently in draft version were submitted for further review.

Genalyn Mosura Rueger formerly at our Manila office is presently serving an internship at NAK-karitativ gaining experience and insights beneficial also for our country.

WITHOUT PLANTING THERE IS NO HARVEST. NO HARVEST MEANS **FAMINE.**

August 7, 2024 - The El Niño phenomenon has significantly impacted agricultural production in the Soccksargen region home of the Tiboli tribe. Time is running out and we started with a first step, supporting 243-smallholder farmers in 12-villages of the T’boli Municipality. With the assistance of the Department of Agriculture, we were able to also provide valuable guidance on best practices for farm management, ensuring the farmers are well-equipped to achieve a good harvest.

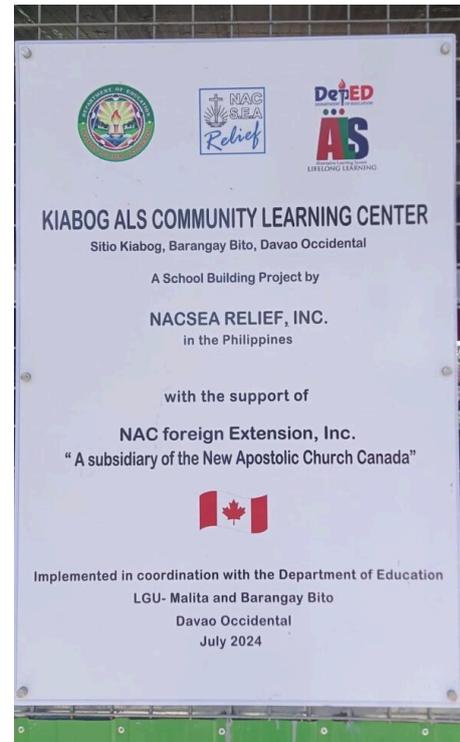

Additionally, the Local Government Units (LGUs) played a crucial role in the success of this initiative. They generously allowed us to utilize their facilities for the orderly distribution of resources. Their support was instrumental, especially given their own financial constraints. The LGUs have expressed their gratitude towards our NACSEA RELIEF management acknowledging that they lacked the necessary funds to provide the corn seed required for the planting season.

EDUCATION BEYOND BORDERS

August 12, 2024 - Children in urbanized areas are privileged. They have classrooms and teachers. There are however still many communities, where children are out of school because it needs hours to walk to reach a classroom. Children go to church but not to school, one of these isolated locations is Sitio Kiabog, Brgy Bito, Malita, Davao Occidental.

“NAC foreign extension” a subsidiary of the New Apostolic Church of Canada has supported NACSEARelief to reach out by providing enhanced infrastructure for education.

In a festive ceremony our Director and board of trustee member Rev. Freddie Nuyad has turned over the newly constructed facility to the Department of Education. The Barangay Captain Hon. Janice Martin and members of LGU were joined by representatives of DEPED and faculty members, parents and children to celebrate the collective effort with support from Canadian charity.

Special thanks go to the President of NAC Canada, the DA Mark Woll for the generous support. The new classroom represents hope, progress, and a brighter future for the children and the community and is an example of how much can be accomplished with true international collaboration. Another step towards a sustainable future of marginalized children.

Restoring Hope: Rebuilding a Family's Livelihood After Typhoon Ferdie

September 26, 2024 - While Typhoon Ferdie may not have made major headlines, its impact on small communities was deeply felt. Yet for the Cereligia Family on the island of Negros who rely on fishing for their daily sustenance, the storm brought devastation, leaving their fishing boat damaged and their livelihood in jeopardy.

With no means to repair the boat immediately, the family faced uncertainty about their future. Fishing is not just a source of income for them, it is their way of life.

We were thankful to help with the bill of material. Small amounts can go such a long way. This story serves as a reminder that even small storms can leave lasting effects, and even the smallest acts of generosity can change lives.

Two Classrooms and Faculty Room

DEDICATED AND TURNED OVER TO DEPED

Saturday, October 12, 2024, NACSEA Relief Inc. President together with Manager of operations Ms. Mabelle Bagtas visited Dugwakan Primary School (DPS) to attend the highly anticipated Blessing, Inauguration, and Turnover Ceremonies of the newly constructed 2-Classroom and 1 Faculty Room Building Project. This significant milestone symbolizes not only the completion of a vital infrastructure but also the hope for a brighter future for the school's learners.

The event saw the presence of esteemed local government officials, including Municipal Mayor Hon. Peter Paul T. Gonzales, along with local barangay leaders headed by Punong Barangay, Hon. Lorena F. Paclibar.

Their attendance reflected the strong partnership between the school and the community in ensuring quality education for the children of Dugwakan.

Also present were key officials from the Department of Education (DepEd), such as Sir Andie Padernilla (Officer-in-Charge, Education Program Supervisor), Engr. Joneflor V. Bales (Senior Education Program Specialist), and Dr. Catherine L. Betita (Public Schools District Supervisor, District of Banate), along with several school heads. Their participation in the event highlights the collaborative effort between the education sector and external partners to improve learning environments for students.

The ceremonies began with a symbolic ribbon-cutting, led by NACSEARelief Urs Hebeisen, Municipal Mayor Gonzales, and other dignitaries. This was followed by the blessing and dedication of the new building, an emotional moment for all, marking the culmination of months of hard work and shared aspirations. The building, constructed in just six months, represents a dream fulfilled for the school and the community.

The event concluded with a moving speech from Municipal Vice Mayor and the Committee-in-Charge of Education, Hon. Dr. Filemon M. Iran Jr., who highlighted the significance of the project for the municipality. He also reinforced the local government's continued support for the advancement of education, especially in remote areas like Dugwakan.

This day marked not only the completion of a building but also the beginning of a brighter, more hopeful chapter for Dugwakan Primary School and its community. With this new facility, the learners of Dugwakan are now equipped with the space and resources they need to thrive and achieve their dreams.

Together, we have built not just walls but a brighter future for the children of Dugwakan Primary School.

From the bottom of our hearts, MARAMING SALAMAT!
(From a message by Dugwakan Primary Scholars on Social media).

Delivering Hope: Seeds for Farmers' Future Harvest

Sarangani, 24th of October 2024. We pray in the Lord's Prayer: "...Give us today our daily bread".

For many, this is a fervent desire because their fields are bare due to drought. The only way to eat is planting and harvesting yet seeds are often beyond reach. On behalf of NAK-karitativ we work to secure the next corn harvest. Yet delivering the seeds can be very challenging as our Mabelle Bagtas and our local volunteers have found out.

To deliver "Our daily Bread" the faithful pray for, could bring about many challenges even before the work of the farmers starts, before sowing and harvesting.

A heartfelt thank you to NAK-karitativ and to everyone who helped make this possible, ensuring that farmers and their families have hope for the next harvest.

📷 Pictures speak louder than words:

10 YEARS BUILDING CLASSROOMS

Beyond academic achievement and knowledge, education is many things. It is a powerful catalyst for poverty alleviation, social equality, and holistic national development. The Philippines' commitment to enhancing its education landscape echoes its aspiration to unlock the potential of every citizen, regardless of their background. For the longest time in history, education in the Philippines has played an essential role in building the backbone of society, its people, and leaders. Through education, the country molds economists, researchers, politicians, lawyers, teachers, and artists even church ministers. It is a cornerstone of national development, contributing to growth, social progress, and stability.

At NACSEARelief we share this vision. Over 28 Million Filipino learners are sharing classrooms in some 320,000 School Building but less than one third are in good condition. Due to demographic development there is also a shortage of classrooms especially in fare away areas.

With the help from abroad, mainly NAK-HUMANITAS Switzerland we are engaged in building and transferring of classrooms for over ten years. Usually in areas most needed, far away from urbanization. April 2014 the first 2 classrooms were turned over to its purpose in Compostela Valley then Davao del Norte. Many more followed, in total 49 Classrooms, some with faculty rooms and sanitary installations until the most recent project in Banate/ Iloilo.

“Much remains to be done” the secretary said. We are happy to be part of it and look forward to more projects.

PHASE 2 OF CORN SEEDS ASSISTANCE

Lake Sebu - 15th of November 2024. In a town-hall-meeting we distributed on behalf of NAK-karitativ Germany, corn seeds for the fields of 756 families.

Another action in fighting potential famine due to climate change.

Spreading Christmas Hope:

Bringing Aid to Typhoon-Affected Families in Bicol

December 7, 2024 - Mme Carmen Danilos is a philanthropist from Naga in the Bicol region, a German national and recipient of the order of the cross from the Federal Republic of Germany. Our contact dates back to 2016 (see post in this link [NACSEARelief is expanding its territory of activity to the Bicol region / The NAC SEA Relief Fund](#)) She leads various projects especially also benefitting the Agpa tribe in Tiagon

Recent typhoons have again brought suffering to the underprivileged and marginalized population of the Bicol Region. NACSEARelief reached out and supported her endeavors distributing rice to the needy. We contributed 5kg rice packages to 100 families. A little bit of Christmas hope.

STEP Mission 2025:

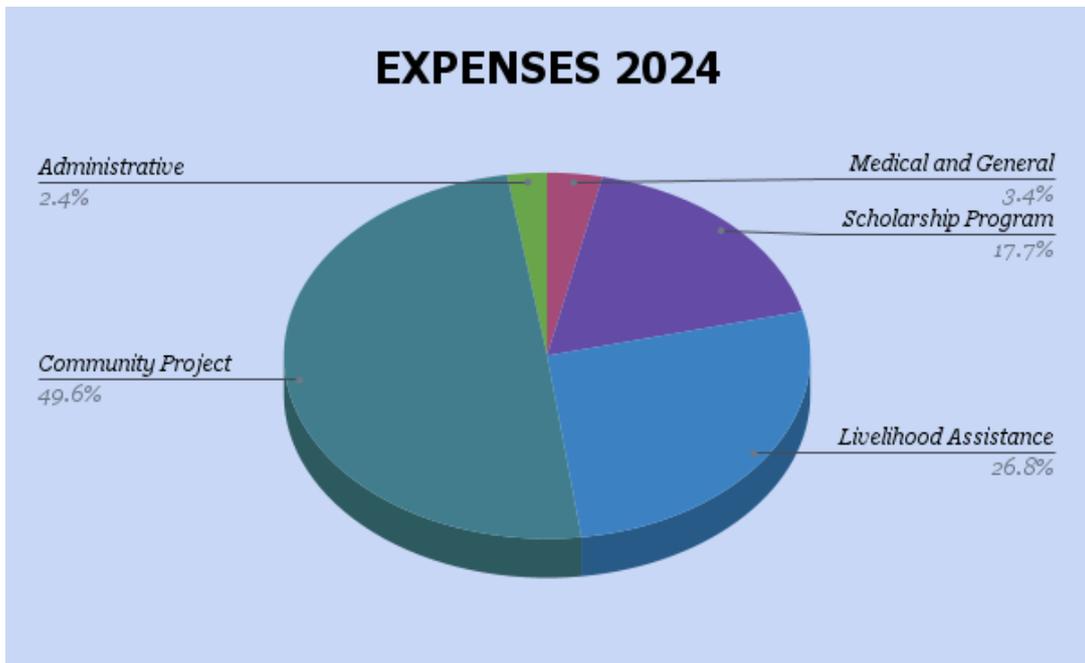

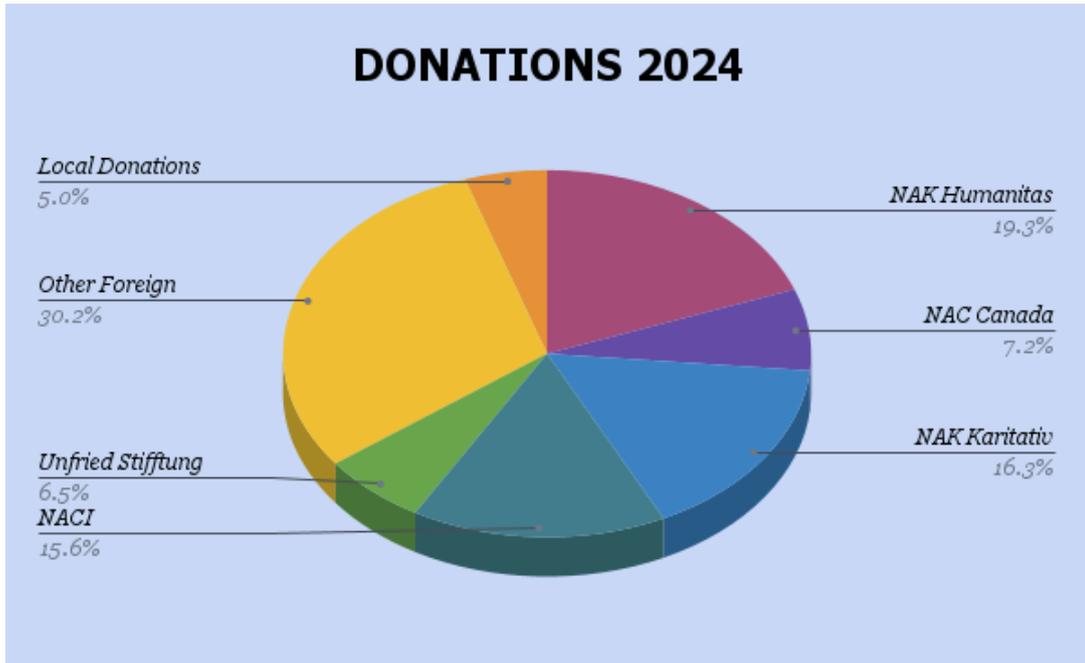

Empowering Communities in Bohol and Beyond

10th of December 2025, STEP Mission in Bohol. Our friends in Bohol had another year full of activities amidst challenges. Again we support them with a contribution as a year ago (see [Annual Reports](#) | [The NAC SEA Relief Fund 2023](#) page 15).

Evelyn Hotz and her husband Jo Gamonez were leading various projects during 2024. Mostly focused on schooling programs for underprivileged children in Bohol, Masbate and Samar they also engage in other worthwhile programs such as food drive, coastal cleaning, mangrove planting, visiting prisoners. High on the agenda is for next year the opening of an agricultural school in Bohol. We wish the STEP family success and blessing in accomplishing their plans.

Financial Statements 2024

OUTLOOK 2025

With hope and confidence, we look forward to continuing our work. Our annual meeting is planned in General Santos on 5th April 2025 when our report 2024 will be published.

Our focus for 2025 remains unchanged. As I once read:

"We do not need new goals for the year. Instead, we must continue progressing toward our current goals while making adjustments based on the feedback we receive from real life."

Our priorities remain in education, particularly through our scholarship program, as well as in livelihood, food sustainability, and disaster relief outreach. Additionally, new classrooms are currently under construction in Negros Occidental and Sarangani Province.

Through our partnerships in Switzerland, Germany, and Canada, we can plan bigger projects but small outreach programs that provide direct help remain close to our hearts. As Galatians 6:9 reminds us: "Let us not grow weary in doing good." We also echo the words of DepEd Secretary Angara: "Education is a shared responsibility".

Planning for the future, engaging young carriers of responsibility is another priority as it is for every organization.

Thank you to all who continue to journey with us. Your support makes a difference!
